### Morae 3 User End Instructions

1. Log in using your uNID & password.
2. Turn on the Logitech Microphone by pressing the button
3. Double click the **Morae Recorder desktop icon** to start Morae.
4. Choose **Open a saved study configuration** and open **(title of study)** i.e. your saved AutoPilot study configuration.
5. Click the **Record** button.
6. AutoPilot starts and displays the study instructions. Click **Start**. (Recording begins when you click Start)
7. The first task displays. Read the instructions and click **Start Task**.
8. The AutoPilot window will collapse while you work on the task. Click **Show Instructions** to view the task instructions for the task.
9. After finishing the task, click **End Task**.
10. The next task will display. Continue this process until you reach the end of the test.
11. When the final task/ survey is complete, a thank you message will appear. Click **OK** to end the test.
12. Save the Recording File Details by clicking **OK**
13. Do not log out. Wait for the instructor to save your recording file to an external hard drive.

Thank you for your participation!
