The Library will renew most database and journal subscriptions for 2016. Due to budget limitations, ongoing price increases, and availability, the Library is reviewing 102 subscriptions.

Here is the review process.

1. Materials previously available from two failing subscription agents were selected for review.
2. Librarians were given the opportunity to look at subscription lists and provide feedback before any titles were available on the Marriott Library website for public comment. Librarians had until April 24, 2015 to share concerns or give feedback to Collection Development.
3. The public list of potential cancellations is posted on the library website for patron review on April 28, 2015.
4. When the public list is posted on the Library’s website, librarians will contact faculty to make them aware of this review and of possible cancellations. The review will also be announced via University of Utah publication FYI.
5. Concerns and comments from faculty, staff, and students will be accepted until May 30, 2015.
