

First laptop login if off-campus

1. Click the Internet icon in the lower right corner and connect to a wireless network.
2. After you are connected: Click the Network sign-in icon in the lower right corner.
3. In the text box, type in **vpnaccess.utah.edu**

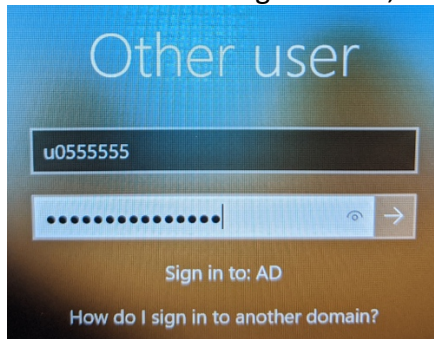

4. In the Group menu, select Single-Factor. Enter your uNID (e.g., u0555555) and university password.

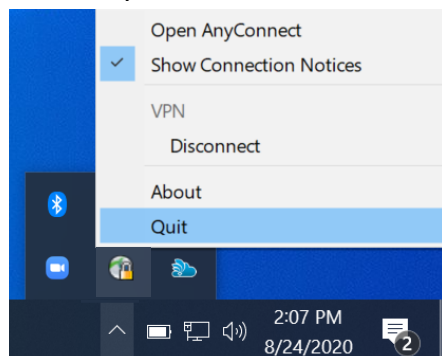

Duo 2FA users (2-Factor Authentication): For Group, select 2FA-DuoSecurity instead. For Second Password, enter "push" to receive a Duo push notification, or enter a code from your Duo Mobile app.

5. Click OK and Accept when prompted.
6. Back at the main login screen, enter your uNID and password to log into the computer.

7. After you are logged in: In the lower right corner, click the arrow to show hidden icons, right click on Cisco AnyConnect, and choose Quit.

For subsequent logins, simply enter your uNID and password to log into the computer.
